

GPAC Funding Guidelines and Tenets

Funding Tenets

Prior to making any funding decisions, GPAC members developed objective, broad-spectrum criteria to apply to all requests given the disparity between the aggregate requested and the funds available to GPAC to allocate. When the minutes from the allocating session refer to the tenets, these are what GPAC decided:

GPAC Funding Priorities o GPAC will seek to follow these priorities in making funding decisions (5=highest priority; 1=lowest priority):

1. Events/activities hosted by graduate student organizations of primary appeal to the general Iowa City/Cedar Rapids community.
 2. Events/activities hosted by graduate student organizations that promote Graduate and Professional education (for Undergraduate or other students).
 3. Events/activities hosted by graduate student organizations whose target audience consists of Undergraduate and Graduate/Professional students.
 4. Events/activities hosted by graduate student organizations whose target audience consists of University of Iowa Faculty/Staff, Undergraduate and Graduate/Professional students.
 5. Events/activities hosted by graduate student organizations whose target audience consists of Graduate/Professional students.
- Collaboration In order to promote collaboration between organizations, GPAC will consider applications from different organizations hosting the same event separately, and will adjust guideline maximums independently, per organization.
 - Diversity, Equity, and Inclusion GPAC will further prioritize applications intended for the promotion of diversity, equity, and inclusion.
 - Overall Intent of Allocations GPAC has written the following guidelines with the intent of using these funds as a supplemental source of funding, rather than a primary source of funding for student organizations.
