

Graduate & Professional Student Government (GPSG) Cabinet Application

Application for International Affairs Director

I am interested in running for the director position on the International Affairs Committee as I am very passionate about representing international students and helping international students across different colleges with their issues. I really want to work and collaborate with various leaders and professionals on campus to lead and advocate for international students and work on pressing issues.

After serving for almost a full academic calendar as a member for GPSG International Affairs Committee, I have been ever-present in trying to push for resolutions to problems and challenges faced by international students and helped organize various programs. I am someone who likes to take initiatives and I really want to take on this leadership role to continue the great work that has been put forward by the committee this year and continue the agendas outlined by committee and continue to work on issues and challenges international students face.

- Raghav Sharma.
